

AFRICAN
Hunting & Adventure Safaris

Dear Friends, Fellow Hunters and Adventurers

After a long and successful trip to the USA, we finally got back home by end of March! So much has happened while we were away and already our season has kicked off with a bang!! Our baby Buffalo, Lucky, that got injured last year, is doing so much better and got very big. Our new hunting dog, Tokolosh, is training very well at only 8 months old and unbelievably clever! On the ranch we are now a little baby Giraffe richer with new babies running around everywhere, Impala, Blue wildebeest, Zebra, Nyala, Waterbuck, Kudu, and Buffalo etc. We also gained two new members to the animal family, Betsie & Brolloks the goats!

We just finished our first hunt for the season with some excellent shooting from Gert Lerm! Blue wildebeest, Impala and Nyala were taken with great stalking and very good shooting! Once again it

proves to us how important the right type of ammunition with the right caliber is. Also, to be a great shot, you need to know your rifle and most importantly, shoot it a lot! As they say: "practice makes perfect"! Long hours of walking and stalking is essential when hunting the Zululand area, as the brush is very thick with lots of trees and very tall grass! We had a very enjoyable time with Mr. Gert Lerm and wish him all the best and safe travels. We can't wait to see him again soon!!

Now we are looking forward to the arrival of our new clients, Mrs. Virginia Mitchell and her husband, with whom we are going on an adventurous Photographic safari!! May they travel safely before we pick them up on the 23rd of April.

*We still have 2 discounted Buffalo hunts available in Zululand for 2013, with exciting new Lion Packages also available!!

Happy Hunting and "Safari Njema"

Piet Steyn & Amanda Lerm
