

## **SAFARI NJEMA NEWS LETTER 2006 NO2**

Dear Friends and Clients

It is hard to believe that it is the end of June and the time has come to move to Tanzania. Safari Njema had a good season so far and we had much fun on Safari in South Africa. First it was Hamilton and Burwell and we hunted in the Free State of RSA. We took a very nice Blesbuck of 17+' and some outstanding Springbuck. This was a safari with a total different scenario as we had snow on the last day and had a snowball fight.

Then it was up to my most northern concession for Kudu and Gemsbok and animals generally found in the bush feld. Here a wonderful father and his daughter Brent and Kristine Nelson were on safari with me. Brent took an outstanding old Kudu of 54 and a very good Gemsbok bull of 41'' While we hunted Kristine enjoy the pool and waited for us to come back for lunch she then accompany us on the afternoon hunt. In the evenings we played monopoly and trivial pursuit or watch the stars while sitting at the campfire we had much fun and the whole crew grew very fond of them Thanks Brent and thanks Kristine it was a wonderful Safari.

The last time Chris Webb was on safari with me he fitted under my arm it was hard to believe that he is bigger than me at the moment (well I think it is true that they make everything bigger in Texas) John and his son joined me on safari in the Limpopo province for a hunt for Kudu Eland and Limpopo Bush buck. This was probably one of the hardest and longest hunts I had on eland. In total we walked 24hrs and one day spend 9hrs on the track of a big bull. Both John and Chris shot some Kudu over 53 and John an outstanding Bush buck nearly 17''

Hope all of you are having a good time safe hunting! I'm of to go and hunt some stuff that can bite scratch and stomp on you so hope fully when I write my next newsletter I will still be in one piece.

Best regards

SAFARI NJEMA "SAFE JOURNEY"
