

SAFARI NJEMA NEWS 2de FOR 2009

Dear Friends and Clients,

WOW a lot have happened since I last send out my NEWSletter that I have to divide it up in 3 categories. We had 3 safaris and I don't want to put the one above the other as they were all VERY SPECIAL and SPECIAL memories were made. New friends have been made and lots of talk about the next safaris and the adventures of the past will be talked about for a long long time. As usual we were hunting Eland and plains game well, as you know Eland is very special and a few guys have seen that it is not child's play. Well I seen some people run, faint, dehydrate and gave up. But this was not the case this year.

I must say well done to Stu and Boris (The Afrikaans way is BORRIS) I have seen them run and walk and crawl all to be awarded with a very nice Eland. Stu and Boris have hunted the Free State and the Limpopo in one safari here is some special pictures. Remember the HO HO wildebeest from Jothamat 10 Yards. Stu and Boris have taken 19 animals on the safari it was challenging but what fun. Now for some adventure in TZ for buffalo and lion.

Then there was the safari of Michael Murad

We had walked were disappointed had some shots with the bow walked some more we learned some lessons. But most of all we had fun Michael took some nice trophies on the 7 day safari here in RSA. One

thing that I can say make sure you look inside the Bow blind before getting in .You might see your PH running from bats and the client laughing about it.

Then came the Reed Safari and what a safari it was we started of at JHB then went to the Limpopo from there we left on a drive to Zululand. Ray was hunting for Eland and Njala but as Ray had find out even in RSA behind fences it is not easy. The perception that when you hunt in RSA and there is a fence around the concessions makes it easy is far from true. Needles to say we hunted Eland for 7 days but did not get one the wind was never in our favor and the moon were full. We got close a few times but never had a shot. We had better luck in Zululand were Ray shot this very nice gold medal Njala or is it (NALIA even im confused.)

Well we are looking forward to the next clients arriving in RSA and then of to TZ. Du to the bad economics I can offer some discounted hunts in TZ for 2001 prices. Here they are and dates with it.
