

AFRICAN
Hunting & Adventure Safaris

Dear Friends, Fellow Hunters and Adventurers

Lee Foster started to hunt Africa long before his son was born. Well Frank Foster Jr turned 10 years of age this year and Frank got to experience Africa. He practices a lot back home with his 243 win. Well it pays off, from the first shots on paper to the last animal hunted on his list. Frank had shot some deer/turkey and bob cat in the USA. Frank's first animal in Africa was a Southern Impala taken with a perfect shot. After that a little bit of a ritual some blood on the face for the first animal.

A very proud Lee Foster with his son. Frank had the opportunity to take one of Africa's very special antelope a Nyala is very special and here is Frank with his Gold medal Nyala. No one can leave Africa without a Warthog.

All had so much fun and Safari Njema thank Lee and Frank for a wonderful safari

Happy Hunting & "Safari Njema"
