

# SAFARI NJEMA FINAL NEWS FOR 2008

Dear Friends and Clients,

It feels like yesterday that I have written the last newsletter of 2007 now I'm at a time where I'm writing that again. A lot have happened during this year there was an American election that was look at here in Africa as a big event because of the people involved. Zimbabwe had an election Bob Mugabe lost but is still in power the country with the worst inflation rate they are printing a \$500 million Zim note and maybe you can buy a bread. This was a great hunting year on the other hand Safari Njema had taken a lot of good trophies over 90% of them made the SCI record book. This was also a year that Safari Njema had taken the most different species in one year. One very good client Lee Foster from SC came on safari for only the small stuff and belief you me it was not as easy as hunting the dangerous ones. Then one of the scariest moments of my life was when hunting with Dr. Jim Hunter of SC when a 13ft black mamba looked me in the eye, when I was standing on the hunting truck looking for buffalo in the swamp. Safari Njema has secured a concession in the Selous LA1 this block, is bordered by a national park on the one side and 2 photo safari blocks on the other 2 sides. It has the Kilombero River running through it. The lion are really good and leopard has a 95% chance of getting on bait. The quota is not big, 2 lion 2 leopard 30 buffalo and 4 elephant. The elephant could be done on a 16 day safari plus limited plains game. There is an abundance of Zebra, Wildebeest, Impala Hippo and Crocodile.
